Introduction

The membership of the Association of American Veterinary Medical Colleges is pleased to present the inaugural AAVMC Annual Data Report 2011-2012. This report includes data concerning veterinary school faculty, students and applicants and represents the most frequently requested data from the AAVMC.

The Annual Data Report of the Association of American Veterinary Medical Colleges features a subset of data compiled through an internal member's only data collection conducted each fall. The 28 colleges and schools of veterinary medicine in the United States were surveyed, and each institution reports on their full complement of employed veterinary interns and residents. A final report is distributed exclusively to participating members of the AAVMC in December. The Annual Data Report features data on faculty and students from the 28 colleges and schools in the United States. The participating AAVMC member institutions are listed below.

**EDUCATIONAL DEBT
SUMMARY 2010-2011**

Table 16

Year	Median Educational Debt of Indebted Graduates	MEAN Educational Debt of Indebted Graduates	Number of Students Graduating with Educational Debt	Total Number of Graduates
2010	\$121,518.00	\$118,573.00	2183	2409
2011	\$129,717.81	\$124,957.22	2232	2504

Additional Notes

1. Faculty data is presented in both full time equivalent (FTE) and headcount formats to facilitate use of the data for different research purposes. For example, researchers studying diversity related topics may find the use of headcount data more appropriate than FTE data, while inquiries examining faculty budgetary distributions may find FTE data more useful.
2. DVM student enrollment data includes for the Classes of 2012 through 2015 (Tables 7-11).
3. Data presented in Table 13 present GRE score averages that were collected prior to the implementation of a new GRE scoring mechanism. Additional information regarding the new scoring system can be found on the Educational Testing Service website: <http://www.ets.org/gre>.
4. Data presented in Table 15 represents resident and non-resident first year tuition and fees for the 2011-2012 academic year. Several states statutorily mandate that institutions not charge resident DVM students tuition; these students are charged *fees* in lieu of tuition. In such cases, non-resident students may be charged a tuition premium in addition to the attendance fee. To obtain the most accurate figure for these educational expenses, please refer to the column in which total tuition and fees are presented.
5. AAVMC data does not currently report tuition that may be charged to fourth year students who may be matriculating on an extended calendar year.
6. Student debt information presented in Table 16 represents a summary of median and average debt reported by the 28 US institutions. The original data are not student reported, which may account for differences found in other publicly available data sets.
7. Data from this report should be cited in publications as follows:

2011-2012 Public Data Report. Washington, DC: Association of American Veterinary Medical Colleges; 2012.
